

## Public School Choice

Buildings in School Improvement status are required to offer public school choice. School Improvement means that the school did not meet Ohio's goals in reading, mathematics or attendance for two or more years. Phillips Elementary School did not reach the reading goal set for special education learners. All other subgroups showed progress as measured by AYP.

This classification does allow parents the choice of having their child attend one of the other schools in Marietta that did not have a school improvement classification. The following table depicts the number of students who took advantage of public school choice.

### Phillips Elementary

| School Year | Students Eligible | Students Exercising School Choice Option |
|-------------|-------------------|--|
| 2010-2011   | 411               | 5  |
| 2011-2012   | 423               | 2  |

## Supplemental Educational Services

Because of the *No Child Left Behind* funding, children attending schools in School Improvement status can receive free tutoring in reading and mathematics if the family meets income requirements under the law. Phillips Elementary School is in its second year *School Improvement*, thus making lower income families eligible for this service.

You can now choose a free tutoring program that is best for your child. A list of approved tutoring programs may be found [linked here](#). A list of providers will also be available in the school office. These programs have been approved by the Ohio Department of Education and will provide your child with tutoring that is coordinated with what is being taught in your child's school. The availability of this free tutoring may be limited. Please contact Joe Finley at (740) 374-6514 for more information.
